

NEHA SHARMA

Full Stack Web Developer
Delhi, India

Education

B.Tech
2013

Kurukshetra University (KUK)

Career Objective

Dynamic and results-driven Full-Stack Web Developer with a strong track record of building scalable, high-performance applications across multiple domains.

Frontend: Experienced in developing responsive and interactive user interfaces using React.js, ensuring seamless user experiences and optimized performance.

Backend: Skilled in building robust server-side applications with Node.js, PHP, and modern frameworks like Laravel, delivering efficient API-driven solutions.

Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js) for developing end-to-end web applications with clean architecture and scalable design. Architecture & Leadership: Adept at integrating modern development patterns, leading full-cycle web

mentoring teams to deliver secure, maintainable, and high-quality applications.

Work Experience

Codways Technologies, Noida
Full-stack Web Developer | Tech Lead
June 2023 - Till Now

As a passionate and results-driven Full Stack Developer, I specialize in building responsive, scalable, and secure web applications from the ground up. With hands-on experience across JavaScript, React, Node.js, MongoDB, Express, PHP, Laravel, MySQL, HTML5, CSS3, and WordPress, I bring ideas to life using modern tools and best practices. I excel at crafting clean UIs, developing robust REST APIs, managing deployments with Git and AWS, and delivering high-quality solutions through agile methodologies.

Key Responsibilities:

Leading full-cycle project development from planning to deployment.

Managing client relationships and translating business needs into technical strategies.

Overseeing a team of developers, UI/UX designers, and testers.

Driving innovation in tech stacks, frameworks, and deployment strategies.

Ensuring quality control and timely delivery of projects.

Core Technologies:

JavaScript, React, Node.js, MongoDB, Express, PHP, Laravel, MySQL, HTML5, CSS3, WordPress, REST APIs, Git, AWS

Achievements:

Successfully delivered 50+ projects across industries. Scaled the team and expanded services to international clients.

Built long-term partnerships through trust, innovation, and performance.

PRIMARY SKILLS

Languages & Frameworks:

JavaScript (ES6+), Node.js, PHP, Laravel, React.js, Express.js, and MERN Stack development.

Frontend Architecture:

Skilled in modern UI patterns and component-based architecture using React.js, including Hooks, Context API, and Redux for scalable state management.

Backend & API Development:

Experienced in building RESTful APIs using Node.js (Express) and Laravel, with a strong focus on clean, modular, and maintainable backend architecture.

Databases:

Proficient with MongoDB, MySQL, and PostgreSQL, including schema design, query optimization, and ORM/ODM tools like Mongoose and Eloquent.

Version Control:

Hands-on experience with Git, GitHub, Bitbucket, and collaborative development workflows.

Integrations:

Expert in integrating third-party APIs, libraries, authentication systems, and payment gateways.

Additional Expertise:

Strong debugging, performance optimization, and advanced problem-solving capabilities.

Divine Creation

Full-stack Developer | Web & App Developer August 2020 - May 2023

As a passionate and results-driven Full Stack Developer, I specialize in building responsive, scalable, and secure web applications from the ground up. With hands-on experience in both frontend and backend development, I bring ideas to life using modern technologies and agile methodologies.

Tech Stack Highlights:

Frontend: HTML5, CSS3, JavaScript, React.js, Angular, Vue.js, Bootstrap, Tailwind CSS.

Backend: Node.js, Express.js, PHP.

Tools & DevOps: Git, GitHub, Postman, RESTful APIs.

What I Bring to the Table:

End-to-end project ownership from concept to deployment.

Effective communicator, team player, and quick learner.

Whether it's developing user-friendly interfaces or architecting robust backend systems, I aim to deliver impactful digital solutions that solve real-world problems.

Edge Fintrack Capital Private Limited

Full-stack Developer November 2018 - July 2020

Designing, developing, and maintaining websites and web applications.

Third Eye Automation Pvt. Ltd

Web Developer February 2016 - August 2018

Designing, Developing, and maintaining websites and web applications

Certification

OM Satyam Technologies, Chandigarh

01 Year in Web Development

PROJECT UNDERTAKEN

Ashirvad Pipes

Url: <https://www.ashirvad.com/>

The Ashirvad Mitra app was designed and developed to enhance the dealer experience for Ashirvad Pipes, a leading brand in the plumbing and piping industry. The app empowers dealers with tools to manage their business more efficiently, track performance, place orders, and access promotional schemes. By integrating key features such as business ledgers, performance leaderboards, and an FAQ section, the app improves dealer engagement, drives sales, and provides real-time support.

Bizmaxus

Url: <https://www.bizmaxus.com/>

The Bizmaxus website was designed and developed to showcase the company's digital capabilities and deliver a seamless experience to potential clients. The platform highlights Bizmaxus's core services, industry expertise, and technology-driven solutions while maintaining a clean, modern, and user-friendly interface. With features such as service overviews, industry case studies, and easy inquiry options, the website strengthens brand credibility, enhances client engagement, and supports business growth. By focusing on responsive design, intuitive navigation, and clear communication, the platform successfully represents Bizmaxus as a trusted digital transformation partner.

Hireonix AI

Url: <https://hireonixai.com/>

The Hireonix AI website was designed and developed to highlight the company's expertise in AI-powered hiring and workforce automation. The platform provides a seamless experience for businesses looking to streamline recruitment through innovative, data-driven solutions. With sections showcasing AI capabilities, product features, industry use cases, and integrated contact options, the website enhances user engagement and positions Hireonix AI as a forward-thinking technology partner. By focusing on clean UI, responsive layouts, and clear messaging, the platform effectively communicates the brand's value, builds credibility, and supports lead generation.

TeachXPro

Url: <https://www.teachxpro.com/>

The TeachXPro website was designed and developed to showcase the company's educational services and solutions, offering a seamless and engaging experience for learners, educators, and institutions. The platform presents TeachXPro's offerings — from online courses to training programs — through intuitive navigation, clear service descriptions, and informative content.

With dedicated sections for course catalogs, features, testimonials, and contact/inquiry options, the website improves user engagement, builds trust, and encourages conversions.

By emphasizing a clean, modern design, responsive layouts, and clear messaging, the platform effectively communicates TeachXPro's value, strengthens brand identity, and supports its growth as a trusted education and training partner.

HelloJi

Url: <https://www.helloji.com/>

The HelloJi website was designed and developed to showcase the company's services and provide a smooth, intuitive user experience for its audience. The platform presents HelloJi's offerings clearly – with well-organized service descriptions, user-friendly navigation, and easy access to contact or inquiry options. With dedicated sections for features, benefits, client support, and calls to action, the website enhances user engagement, builds trust, and encourages conversions. By using a clean and modern design, responsive layout, and clear messaging, the site effectively communicates HelloJi's value, strengthens brand identity, and supports growth as a reliable service provider.

ZekaAI

Url: <https://www.zekaai.in/>

The ZekaAI website was designed and developed to highlight the company's AI-driven solutions, offering a seamless and intuitive user experience for clients exploring advanced technology services. The platform presents ZekaAI's services clearly, with well-structured sections showcasing offerings, features, case studies, and contact or inquiry options. With smooth navigation, informative content, and a responsive layout, the website improves user engagement, builds credibility, and encourages conversions. By combining a modern design, clear messaging, and easy access to support or contact features, the site effectively communicates ZekaAI's value and strengthens its identity as a reliable AI and tech solutions provider.
