

ANAND

TECHNICAL LEAD

CAREER OBJECTIVE

Dynamic and results-driven Server-Side Developer with a track record of designing scalable backend solutions across domains.

Backend: Experience with server-side development using **Spring Boot (Kotlin & Java)** & **Ktor** enabling seamless API-driven solutions.

Mobile Expertise: Proficient in native **Android (Kotlin & Java, including Jetpack Compose)** and **iOS**, as well as cross-platform frameworks like **Flutter and Kotlin Multiplatform**.

Architecture & Leadership: Skilled in integrating **modern architectures, leading end-to-end mobile projects, and mentoring teams** to deliver high-performance applications.

PRIMARY SKILLS

- **Kotlin, Java**, Dart, JavaScript, Swift.
- Skilled in clean architecture patterns including MVC, MVP, and MVVM, and state management solutions such as BLoC and GetX.
- MySQL, PostgreSQL, RoomDB, Realm, SQLite, and SQFlite.
- Version Control (Bitbucket, GitHub, etc.)
- Integration of Third-Party Libraries and APIs.
- Advanced problem-solving and debugging.

EDUCATION

- 2016 **Masters In Computer Application**
(Lovely Professional University Jalandhar, Punjab)
- 2013 **Bachelor In Computer Application**
(M. Gandhi Kashi Vidyapith Varanasi, Uttar Pradesh)
- 2010 **Intermediate**
(Uttar Pradesh Board Allahabad, Uttar Pradesh)
- 2007 **High School**
(Uttar Pradesh Board Allahabad, Uttar Pradesh)

WORK EXPERIENCE

- Oct, 2024 To Till Now **Quadrafort Technologies Pvt Ltd**
(Bhutani Alphathum, Sector – 90, Noida, Uttar Pradesh)
Lead Application Engineer
- Jun, 2022 To Sep, 2024 **Sutraa Techno Pvt. Ltd.** (Merged with Quadrafort Technologies)
Mobile Application Tech Lead
- Dec, 2018 To Jun, 2022 **Neuweg Technologies Pvt. Ltd.**
(C-267, Sector-63, Noida, Uttar Pradesh)
Android & Flutter Developer
- July, 2016 To Dec, 2018 **RS Softech**
(MS 32, Pratap Vihar, Ghaziabad, Uttar Pradesh)
Android Application Developer

CERTIFICATION

- Associate Android Developer (**Kotlin**), Google – 28 October, 2019
- Google Plex, LPU – February, 2014
- Google Dev Fest, LPU – October, 2013
- Ethical Hacker (CEH), MBS P.G College – April, 2012

PROJECT UNDERTAKEN

Radico Khaitan

Currently working on a React Native application for Radico Khaitan, focused on tracking field sales representatives' visits to vendors and managing **on-shelf stock visibility**. The app integrates with the **Salesforce SDK** to streamline sales activity tracking, attendance logging, vendor check-ins, and shelf space monitoring. The goal is to improve real-time field reporting, product placement analysis, and operational efficiency for the sales team.

MMTC (E-Commerce)

Created an e-commerce platform for **MMTC PAMP** to enable **seamless gold and silver purchases**. Integrated features such as secure payment gateways (Razorpay, PayU), **order management, and logistics collaboration with BVC**, Delivery, and CMS. Built using **React Native** for cross-platform compatibility.

Insecticides (India) Ltd (IIL)

Led the development of SFA (**IIL 360**) & DMS (**IIL Pariwar**) Applications for Insecticides (India) Ltd., aiming to improve sales and distribution management in agriculture. The SFA module includes functionalities for **mapping clients, tracking visits, managing expenses, handling orders and inventory**, and generating sales reports. The DMS module supports **order processing, sales reporting, invoicing, balance confirmation, and ledger management**. These apps were built with **Flutter** to ensure cross-platform compatibility, integrating REST APIs and SQLite for efficient data management.

Fujifilm India Private Limited

Fujifilm Connect is a convenient platform for managing Fujifilm Service and Support anytime, anywhere. It simplifies creating and **tracking service requests**, monitoring preventive maintenance, and managing your Diagnostic Centre fleet. You can also explore Fujifilm Medical products and make inquiries effortlessly. Built with **React Native** to ensure cross-platform compatibility, it offers key features like service request tracking, viewing history and planned services, real-time notifications, and easy access to Fujifilm's medical product range—all in one place.

Ashirvad Pipes

The Ashirvad Mitra app was designed and developed to enhance the dealer experience for **Ashirvad Pipes**, a leading brand in the plumbing and piping industry. The app empowers dealers with tools to manage their business more efficiently, **track performance, place orders**, and access **promotional schemes**. By integrating key features such as business ledgers, performance leaderboards, and an FAQ section, the app improves dealer engagement, **drives sales**, and provides real-time support.

Oncquest Laboratories

Built a comprehensive Sales Force Automation (SFA) application for Oncquest Laboratories, specializing in pathology and diagnostic services. The app enables sales representatives to create new **clients, schedule meetings, track expenses, and manage performance in real-time**. Administrators can assign tasks, monitor updates, and track overall sales activities. Developed in **Native Android using Kotlin**, XML, REST Web Services, and Firebase, ensuring a smooth and efficient user experience.

GoEva - Taxi Application

GoEva is a ride-sharing application developed for both Riders and Drivers, designed to enhance the user experience by providing seamless and efficient features similar to industry leaders like **Uber**. The application includes intuitive functionalities for both parties, allowing Riders to easily book rides while providing Drivers with the necessary tools to manage their trips and earnings. The app is built for Native Android using Kotlin and integrates with various services such as RESTful APIs, Firebase, and **Google Maps to deliver real-time tracking and navigation**.

Other Application

Money Loji, Diagno Lab, Zippy Logistics, Edge Fintrack, Black Like Moi, Thaw, McCoy Appliances, Acrysil Service, Sunflame, Tefal Care, Surya Service, QFX Care & Etc.

PERSONAL DETAILS

Mother's Name : Maya Devi

Father's Name : Deenanath Singh

Current Location : Noida

A handwritten signature in black ink, appearing to read "Rai" with a stylized flourish above the 'i' and two short horizontal strokes below the 'i'.
