Summary

Founder and Director at Codways Technologies | Full-Stack Web Developer | Tech Mentor

As the Director of Codways Technologies, where I lead a talented team of developers delivering high-quality web and software solutions for clients across various industries. With strong expertise in full-stack development, I specialize in building responsive, scalable, and secure applications using modern technologies like React.js, Node.js, PHP, Laravel, and the MERN stack.

Experience

Codways Technologies

Founder & Director

June 2023 - Present (2 years 7 months)

Noida, Uttar Pradesh, India

As the Founder and Director of Codways Technologies, I lead a dynamic team dedicated to delivering innovative digital solutions across web development, full-stack development, and digital transformation. With a strong vision for empowering businesses through technology, I oversee project strategy, client relationships, and technical execution to ensure high-quality and scalable software solutions.

At Codways, we specialize in building robust web applications, mobile apps, and custom software tailored to our clients' goals. I work closely with developers, designers, and clients to drive forward-thinking solutions that combine functionality with intuitive user experiences.

Key Responsibilities:

Leading full-cycle project development from planning to deployment

Managing client relationships and translating business needs into technical strategies

Overseeing a team of developers, UI/UX designers, and testers

Driving innovation in tech stacks, frameworks, and deployment strategies

Ensuring quality control and timely delivery of projects

Core Technologies:

JavaScript, React, Node.js, MongoDB, Express, PHP, Laravel, MySQL, HTML5, CSS3, WordPress, REST APIs, Git, AWS

Achievements:

Successfully delivered 50+ projects across industries

Scaled the team and expanded services to international clients

Built long-term partnerships through trust, innovation, and performance

Divine Creation

Full-stack Developer | Tech Lead

August 2020 - May 2023 (2 years 10 months)

Noida, Uttar Pradesh, India

Full Stack Developer | Web & App Developer | Problem Solver

As a passionate and results-driven Full Stack Developer, I specialize in building responsive, scalable, and secure web applications from the ground up. With hands-on experience in both frontend and backend development, I bring ideas to life using modern technologies and agile methodologies.

Tech Stack Highlights:

Frontend: HTML5, CSS3, JavaScript, React.js, Angular, Vue.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, PHP

Tools & DevOps: Git, GitHub, Postman, RESTful APIs

What I Bring to the Table:

End-to-end project ownership from concept to deployment

Effective communicator, team player, and quick learner

Whether it's developing user-friendly interfaces or architecting robust backend systems, I aim to deliver impactful digital solutions that solve real-world problems.
