

Mohd Zeeshan

FRONT-END DEVELOPER

Professional Summary

Detail-oriented Front-End Developer with 1 year of professional experience in software development, designing and developing responsive, user-friendly web interfaces. Adept at transforming UI/UX designs into functional, high-performance web applications using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS. Eager to contribute innovative solutions and modern web practices to a forward-thinking team.

Employment History

Front-End Developer, Codways Technologies, Noida

10/2024 - Present

- Developed and maintained responsive client websites and internal applications utilizing React.js and Tailwind CSS, ensuring user-friendly interfaces.
- Collaborated effectively with backend developers to integrate REST APIs for seamless functionality.
- Enhanced UI performance and optimized Lighthouse accessibility scores to improve user experience.
- Contributed to projects including TeachXpro, ZekaAi, and The Misfit Engine™, focusing on UI/UX design principles.
- Worked closely with the design team to deliver consistent user experiences across all devices.

Education

BCA, Bachelor of Computer Applications (BCA)

2021 - 2024

Projects

TeachXpro, E-learning Web Platform

Developed a complete e-learning web platform with interactive UI using React.js and Tailwind CSS. Focused on performance optimization and user engagement design.

ZekaAi, AI-based Platform

Built a modern AI-based platform integrating API data visualization and dynamic user interfaces. Implemented reusable components and smooth animations using Framer Motion.

The Misfit Engine™, Web Interface for Tech Startup

Created a creative and visually rich web interface for a tech startup, focusing on responsive layouts, accessibility, and brand identity alignment.
